

CCC CALIFORNIA CONSERVATION CORPS

1719 24th Street, Sacramento, CA 95816

Career Opportunity

August 28, 2015

- Do you want to make a positive, significant difference in the lives of citizens in communities throughout California?
- Do you want to improve directly the lives of citizens in the State of California through the implementation of vital environmental restoration projects?

Then the California Conservation Corps (CCC) has the job for you!

The CCC is a dynamic organization committed to developing young men and women by challenging them to complete a year of public service and conservation-related work. Employees of the CCC are leaders who inspire, educate, and challenge young people to further their educational and professional goals.

If you are looking to work for a state department that demands excellence, inspires staff to do their best, protects, and enhances the state's environment, we invite you to apply for a position with the California Conservation Corps, the finest youth Environmental Restoration, Education, Workforce Development program in the world.

RPA#: 16-1056

Duties: Serve as support for the C³ mobile application using Android SDK, Salesforce Mobile, mobile computing, and GPS technologies. Incumbents perform work of average difficulty providing analytical studies and support for the development, installation, implementation, and procurement of information technology systems. Prepare detailed documentation of systems procedure and installation, layouts, detailed drawings, codes and schematics.

Create and maintain functional and technical design specifications and solutions to satisfy project requirements. Serve as a Technical Analyst in meetings that address technical requirements. Participate in technical design sessions, designing and documenting technical solutions that align with business objectives.

Apply modern Systems Development Lifecycle (SLDC) best practices including iterative and incremental development, delivering working systems frequently with attention to excellence. Utilize the CCC Software Quality Management (SQM) processes to ensure the delivery of quality application.

The young women and men of the Corps work hard protecting and restoring California's environment and responding to disasters, becoming stronger workers, citizens and individuals through their service.

Learn IBM Rational products such as Rational Requirements Composer, Rational Team Concert, and Rational Quality Manage. Conduct code reviews for on-going projects to ensure high code quality and uses design patterns.

Maintain competency and currency in Android mobile programming and Salesforce.com development. Invest in personal development through certification or continuous education to maintain position related knowledge in the information technology field. Participate in the development of methodologies, procedures, and standards. Perform special assignments as required.

Highly Desirable Qualifications:

- Fast learner and have a strong desire to become proficient in identifying requirements using Salesforce.com and mobile applications (training will be provided)
- Possess excellent documentation skills
- Proven knowledge of systems development lifecycle
- Shows a positive attitude, a strong sense of ownership, and highly motivated to succeed.
- Excellent written and verbal communication skills.
- Ability to adhere to work in a fast-paced environment under limited direction
- Excellent follow-through on given detailed tasks
- Stay current on existing and emerging development tools, platforms, and delivery models.

Who May Apply: Applicants currently at the Assistant Information Systems Analyst level, or those who have eligibility for appointment or transfer to this classification. Training and Development (T&D) assignments may be considered. **Please Note:** Possession of minimum qualifications is verified prior to interview and/or appointment.

Please indicate RPA #16-1056 in the job title section of your State application.
